WELCOME TO MARIO'S BOWL FOR THE 2020-21 BOWLING SEASON!!

After a long 6 month break, we are excited to welcome you all back to Mario's Bowl for a season like we have never seen before. We are running our leagues at one team per pair of lanes this season to ensure distancing and because of this, some leagues may have to be done in shifts where necessary and spectators may be limited.

As you can see, we have gone above and beyond to put the safety of our customers and staff above all else. With screens between each bowling seating area to alleviate distancing measures, bowling balls marked in pairs so only one person uses per shift, the extensive cleaning protocols we have in place between shifts, we will do whatever is necessary during this time to keep you comfortable while being safely social. If you do feel unwell and have any COVID-19 symptoms, we ask that you not come to your league and contact the health unit to assess if you need to get tested.

Please do not move tables and chairs to other areas. Green towels will not be provided this season but you can bring your own towel and keep in a plastic bag/container if you wet it and please only use it yourself, do not share with others.

As mandated by the Thunder Bay District Health Unit, masks are mandatory when entering and moving throughout the building. Masks may be removed for the purposes of eating/drinking while seated and also in the bowling area during bowling. If you do come out of the bowlers seating area (behind the railing), masks must be worn with the exception of the circumstances given already. Please ensure that you and your team are following these guidelines in order to keep everyone safe and comfortable so they can enjoy their experience as much as possible.

Our washroom facilities are limited to 2 people at a time and do have some amenities unavailable to ensure distancing while in the washroom. If you enter and there are more than two, please wait outside the door for someone to exit.

The locker room is also limited in capacity and if someone is in your row, please distance where possible or wait outside the locker room until they have retrieved their equipment and left the area.

While you are allowed to bowl without masks, please ensure distancing from those outside of your social circle to the best of your ability. Congratulatory gestures such as high fives should be avoided and perhaps an elbow tap, foot tap or just a "way to go" should be used in it's place.

This is new to all of us and we ask that if you find that there is an issue you would like addressed or an idea specifically for your league, please contact the manager immediately.

Our website has been updated with a fresh new look and easier navigation on your mobile device or tablet and all of your league information are available 24 hours a day.

For those leagues that allow prebowls (bowling in advance for your league session), please be aware there are certain times prebowls can not be rolled. Available times will be posted at the front desk and on our website in the near future once we have our league shifts up and running.

We thank you for your patience and loyalty in this environment and will continue to help our customers have the best experience possible while navigating the pandemic along with everyone.

We look forward to the 2020-21 season and will update everyone with any changes in our policies and guidance issued by the health unit or provincial government.

Thank you again
Management of Mario's Bowl
