CONTINUED REVERSE

POINTS

Points will be calculated by regressive handicapped 3 game total, 1st place total receives maximum points, 2nd place receives 1 less point than 1st place, 3rd place receives 1 less point than 2nd and so on until the last place player receives 1 point. Maximum Points will be the total # of bowlers out each week.

Bonus high game with handicap scores will be awarded points to the top 1/3 of the bowlers in a regressive format as well. Ex. If 24 bowlers are out, High Game will Receive 8 points, 2nd place receives 1 less point than 1st place, 3rd place receives 1 less point than 2nd etc.

LANE ASSIGNMENTS

Bowlers will be allowed to bowl with whomever they choose. If a pair only has 2 bowlers, 1 bowler may be asked to move from a pair who has 5 or more, or the 3 bowlers will be spread out across existing lanes who have 4 -7 bowlers.

No Bowler will be allowed to bowl on the same pair as the week previous. Unless unavoidable from previous rule.

A simple pair to the right strategy will be in place so if you bowled 3-4 last week you will bowl 5-6 this week.
